

Rebuilding Together Broward County, Inc. 9th Annual Rebuilding Together Day April 26, 2008

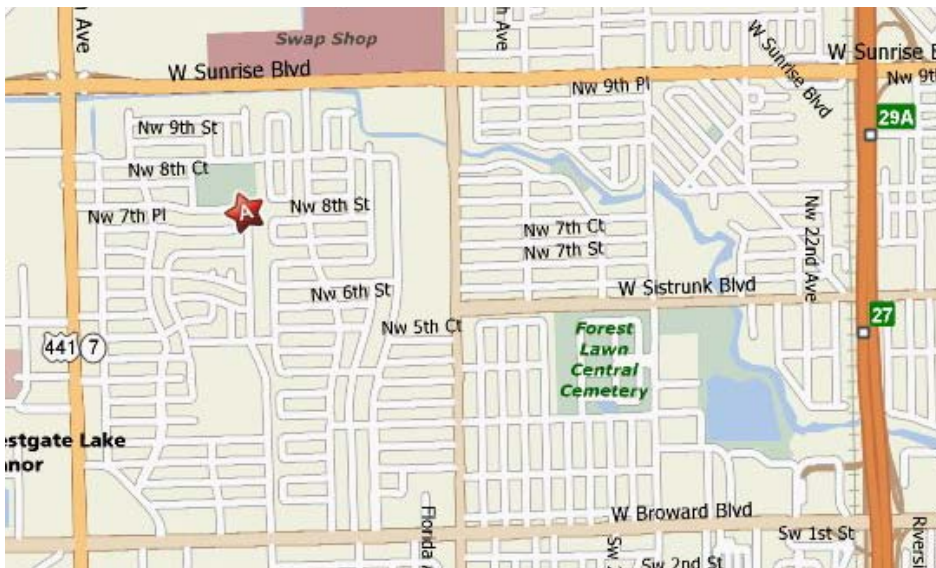

Rebuilding Homes and Communities Together

The 9th Annual Rebuilding Together Day, Saturday April 26th, is upon us. Your Broward County FAMB is involved with many charities. Rebuilding Together Broward is incredibly rewarding, where your one day of participation will literally change people's lives. Rebuilding Together Broward provides home improvements for the elderly, disabled, and families with children-everything from painting and cleaning, to grab bars in baths, on up to new plumbing and roofs. You will be helping families stay in their own home and hold on to the one thing of value they can pass on to their children. More importantly, you will be helping your neighbors maintain their independence and quality of life.

This is an opportunity to help our community in a way that is directly related to what we do, which may be difficult now, but has provided most of us with a fine career and livelihood for our families. So come on out on April 26th and let's help out some other families.

Our 9th Annual Rebuilding Together Day will occur in the City of Lauderhill, in the community of St. George. Join us for this meaningful community service project involving 15 homes.
